Did you ever wonder what the abbreviations on your utility bill stand for? Below is a guide for those abbreviations.

- PB: Previous Balance
- WA: Water Usage Based on Meter Reading
- SW: Sewer Usage Based on Water Usage
- WD: Water Ready to Serve
- SD: Sewer Ready to Serve
- TR: Trash, brush & leaf collection
- RT: Red Tag
- NSF: Non-Sufficient Funds
- RW: Reconnect Water
- DW: Disconnect Water

Please make sure that the Village has the correct information in your utility accounts. We are getting some mail back and when we try to call, the phone numbers that we have on file are not correct. Utility bills are due on the 20th monthly; regardless if you get your bill or not. It is your responsibility to make sure that we have the correct information on your account and that your bill gets paid.

The Village has not been charging penalty, hanging red tags or doing shut offs. **The Village will begin this process again in October 2021.** Please pay attention to how long you let your bill lapse. Anyone that has been on a payment plan that has missed more than one payment will no longer be on the same payment plan. Some will not qualify for payment plans, if they have previously defaulted on too many. Penalty is 10% of your bill – for every month that you are late

People with ACH please check and make sure your payments are coming out of your accounts. We have found a few accounts that have old bank information – so even though your bill is being marked paid the Village is not actually receiving your money – once we find this, we will be applying the unpaid portion back to your bill and the amounts will be due immediately.

All dates are weather permitting. Have leaves and/or brush to the road at 7 a.m. on the designated days. Please do not put them together. Sometimes things happen and they do not get to it on the scheduled day but they will get it that week. Joke of the Month: Why are piggy banks so wise? **Answer:** They're filled with common cents.
