Public Comment
A representative of the Sheriff's Office stated that contracts typically include a 180-day termination provision. The representative explained that if the Village entered into a three-year contract and the Board decided to make a change during the following year or the year after, the Village could terminate the contract with 180 days' notice. The representative stated that a series of one-year contracts would be preferable to avoid if possible, the Undersheriff would contact the Village.

A resident expressed disappointment with comments regarding the decision being based on performance rather than economics. The resident stated that the proposal to establish a Village

police department had been presented as having significant economic benefits and noted that the benefits of law enforcement would be similar whether provided by the Village or County. The resident also noted that operating a Village department would create additional work for the Board and President.

President Comment
stated that the Village will continue working on cost-saving initiatives and maintaining a safe community.
